

**EXCO TECHNOLOGIES LIMITED
MANAGEMENT INFORMATION CIRCULAR**

SOLICITATION OF PROXIES

This management information circular is furnished in connection with the solicitation by the management of Exco Technologies Limited (the "Corporation") of proxies to be used at the annual meeting of shareholders of the Corporation to be held on Wednesday, January 28, 2015, at 4:30 p.m. (the "Meeting"), and at all adjournments thereof, for the purposes set forth in the accompanying Notice of Meeting. It is expected that the solicitation will be made primarily by mail but proxies may also be solicited personally or by telephone by regular employees of the Corporation. The shareholder materials are being sent to both registered and non-registered owners of the securities. If you are a non-registered owner, and the issuer or its agent has sent these materials directly to you, your name and address, and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf. The cost of solicitation of proxies will be borne by the Corporation.

APPOINTMENT AND REVOCATION OF PROXIES

The persons named in the accompanying form of proxy are directors of the Corporation. **A shareholder has the right to appoint a person to represent such shareholder at the Meeting other than the persons designated in the accompanying form of proxy.** Such right may be exercised by inserting in the space provided the name of the other person the shareholder wishes to appoint. Such other person need not be a shareholder of the Corporation.

To be valid, proxies must be deposited with the Corporation's registrar and transfer agent, TMX Equity Transfer Services, 200 University Avenue, Suite 300, Toronto, Ontario, M5H 4H1, not later than 4:30 p.m. (Toronto time) on January 26, 2015, or with the Chair of the Meeting prior to the commencement of the Meeting.

A shareholder who has given a proxy has the power to revoke it as to any matter on which a vote shall not already have been cast pursuant to the authority conferred by such proxy and may do so (1) by completing and signing a proxy bearing a later date and depositing it as described above; (2) by depositing an instrument signed (in writing or by electronic signature) by such shareholder or by such shareholder's attorney authorized in writing at the registered office of the Corporation at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, at which the proxy is to be used or with the Chair of the Meeting at the Meeting, or (3) in any other manner permitted by law.

VOTING OF PROXIES

The shares represented by the accompanying form of proxy will be voted or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for and, if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly. If no specification has been made with respect to any such matter, such shares will be voted by the management representatives for the election of directors, for the appointment of the auditor and the determination of its remuneration, each as described in this information circular.

The accompanying form of proxy confers discretionary authority upon the management representatives named therein with respect to amendments or variations to matters identified in the Notice of Meeting and other matters which may properly come before the Meeting. At the date of this information circular, the management of the Corporation knows of no such amendments, variations or other matters. If matters which are not known at the date hereof should properly come before the Meeting, the form of proxy will be voted on such matters in accordance with the best judgment of the person voting it.

REGISTERED SHAREHOLDERS

You are a registered shareholder if your shares are held in your name and you have a share certificate. Registered shareholders may vote their shares by one of the following methods:

- (a) You may vote by proxy by completing, dating and signing the enclosed form of proxy and sending it by mail or delivery it to TMX Equity Transfer Services , Proxy Department, 200 University Avenue, Suite 300, Toronto, Ontario M5H 4H1 to be received by no later than 4:30 p.m. (Toronto time) on January 26, 2015 or, if the Meeting is adjourned, by 4:30 p.m. (Toronto time) on the second last business day preceding the date of the adjourned Meeting at which the proxy is to be used.
- (b) If you plan to attend the Meeting and vote your shares in person, you do not need to complete and return the form of proxy. Your vote will be recorded and counted at the Meeting. Please register with a representative of TMX Equity Transfer Services upon arrival at the Meeting.

NON-REGISTERED SHAREHOLDERS

Many of the Corporation's shareholders are non-registered shareholders, also known as "beneficial" shareholders. You are a beneficial shareholder if the shares that you own are registered in the name of an intermediary, such as a bank, a trust company, an investment dealer, a trustee or other nominee and not in your own name.

There are two kinds of beneficial shareholders: those who object to their names being made known to the Corporation, referred to as objecting beneficial owners ("**OBOs**") and those who do not object to the Corporation knowing who they are, referred to as non-objecting beneficial owners ("**NOBOs**").

These securityholder materials are being sent to both registered shareholders and to non-registered shareholders (both OBOs and NOBOs). The Corporation is sending the meeting materials directly to NOBOs. If you are a non-registered shareholder, and the Corporation or its agent has sent these materials directly to you, your name and address and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding on your behalf. By choosing to send these materials to you directly, the Corporation (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

The meeting materials for OBOs will be distributed through intermediaries, who often use a service company such as Broadridge Financial Solutions to forward meeting materials to non-registered shareholders.

Intermediaries are required to forward meeting materials to OBOs unless an OBO has waived the right to receive them. Generally, OBOs who have not waived the right to receive meeting materials will be given a voting instruction form ("**VIF**") which must be completed and signed by the OBO in accordance with the

directions on the VIF, or more rarely, will be given a proxy already signed by the intermediary and restricted as to the number of shares beneficially owned by the OBO but which is otherwise not completed.

Should a non-registered shareholder who receives either a proxy or a VIF wish to attend and vote at the Meeting in person (or have another person attend and vote on their behalf), the non-registered shareholder should strike out the names of the persons named in the proxy and insert the non-registered shareholder's (or such other person's) name in the blank space provided in the first paragraph of the proxy, or in the case of a VIF, by following the instructions on that form. By doing so, the non-registered shareholder is instructing the intermediary to appoint such non-registered shareholder or his or her designee as proxyholder.

In any event, non-registered shareholders should carefully follow the instructions of their intermediaries and their service companies or included in the proxy form, as the case may be.

VOTING SHARES AND PRINCIPAL HOLDERS THEREOF

As of the date hereof, the Corporation has outstanding 42,145,749 common shares ("**Common Share**"). Each holder of record of a Common Share, as at the close of business on December 2, 2014, (the "**Record Date**") will be given notice of the Meeting and will be entitled to one vote for each Common Share held as of the Record Date on all matters to come before the Meeting, or any adjournment thereof.

To the knowledge of the directors and officers of the Corporation, no person beneficially owns, controls or directs, directly or indirectly, more than 10% of the outstanding Common Shares except as hereafter set out. Corporations owned or controlled by Brian A. Robbins of which the beneficiaries are Brian A. Robbins, his wife and children, beneficially own 8,493,046 Common Shares. Brian A. Robbins and his wife also beneficially own an additional 1,137,132 Common Shares, which together with the Common Shares referred to in the immediately preceding sentence, represent approximately 22.8% of the issued and outstanding Common Shares. In addition, the Corporation has also been advised that Kernwood Limited, a private investment company controlled by Edward J. Kernaghan, holds 4,770,800 Common Shares, representing approximately 11.3% of all the issued and outstanding Common Shares.

BUSINESS TO BE TRANSACTED AT THE MEETING

FINANCIAL STATEMENTS AND REPORT FROM AUDITORS

Management, on behalf of the Board, will submit to the shareholders at the Meeting the audited consolidated financial statements of the Corporation for the fiscal year ended September 30, 2014 and the report of the Auditors thereon. The audited consolidated financial statements and Auditors' report form part of the Corporation's 2014 Annual Report to Shareholders which is being mailed to shareholders with the notice, the proxy and this circular. Copies of all these documents are available on SEDAR at www.sedar.com.

APPOINTMENT OF AUDITOR

The persons named in the enclosed form of proxy intend to vote for the reappointment of Ernst & Young LLP, Chartered Accountants, Toronto, Ontario as auditor of the Corporation to hold office until the next annual meeting of shareholders at remuneration to be determined by the directors of the Corporation. Ernst & Young LLP was first appointed auditor of the Corporation on January 22, 1992. For the fiscal year ended September 30, 2014, the Corporation incurred \$431,571 in fees from Ernst & Young LLP for audit, audit related, tax and other fees.

	2014	2013
Audit services and related fees	\$377,780	\$301,500
Tax fees	16,086	14,520
All other fees	37,705	150,000
Total	\$431,571	\$466,020

ELECTION OF DIRECTORS

The articles of the Corporation provide for a minimum of 3 and a maximum of 15 directors and the Board of Directors is empowered to determine the number of directors from time to time. The Board currently consists of 7 members and at the Board meeting held on November 26, 2014 the Board determined that the number of directors to be elected at this Meeting would remain at 7.

The persons named in the enclosed form of proxy intend to vote for the election of the nominees whose names are set forth below. Management does not contemplate that any of the nominees will be unable to serve as a director but, if that should occur for any reason prior to the Meeting, the persons named in the enclosed form of proxy reserve the right to vote for another nominee at their discretion. Each director elected will hold office until the next annual meeting or until his or her successor is elected or appointed if his or her office is earlier vacated.

Under the Corporation's Board of Directors Charter annexed as Schedule A hereto, any nominee in an uncontested election who receives, from the common shares voted at the meeting in person or by proxy, a greater number of shares withheld than shares voted in favour of his or her election, must promptly tender his or her resignation to the Chairman of the Board, to take effect on acceptance by the Board. The Board and if deemed appropriate by the Board, with the assistance of the Governance and Nominating Committee, will, absent exceptional circumstances, accept the Director's offer to resign. The Board will have 90 days to make a final decision and announce it by way of news release or other means acceptable to the Toronto Stock Exchange. The Director will not participate in any committee or Board deliberations on the resignation offer.

The following summary sets forth the names of all persons proposed to be nominated for election as directors, all other major positions and offices with the Corporation now held by them, their principal occupations, their periods of service as directors of the Corporation and the number of Common Shares of the Corporation beneficially owned, directly or indirectly, or over which control or direction is exercised by each of them. All directors are residents of Ontario, Canada. Each of the nominees has been previously elected at a meeting of shareholders.

REPORT ON CORPORATE GOVERNANCE

All directors of the Corporation, other than Mr. Robbins, who is the President and CEO of the Corporation and who holds in excess of 10% of the Corporation's issued and outstanding Common Shares and his daughter Ms. Kirk, are independent within the meaning of Section 1.4 of NI 52-110. Accordingly a majority of the directors, including the Chairman, are independent. A description of the Chairman's role is set out in Schedule A hereto.

The Board has a written charter, the text of which is set forth in Schedule B hereto. The Corporation has also developed a position description for the Chairman and the President/Chief Executive Officer ("CEO") which are set forth in Schedule A. The Board has not developed written position descriptions for the Chair of each of the Corporation's three standing Committees. However, the Board has developed Charters for each of its Committees and the Chair of each Committee understands his/her responsibility for taking the lead role in ensuring that such Committee is operating effectively in accordance with its Charter. Specifically, the Chair of each Committee is responsible for preparing/approving the agenda for the meetings of his or her Committee, managing the affairs of the Committee, monitoring whether the Committee is receiving timely information of appropriate quality before, during and after Committee meetings and providing a link between the Committee and the Board.

Orientation of new directors is accomplished by ensuring that they attend at the Corporation's various production facilities and meet local management. Local management also routinely attends Board

meetings and presents their budgets to the Board each year thereby ensuring that directors have ample exposure to those actually running the businesses and opportunity to question both senior executives and local business unit managers. Meetings with the Corporation's executives ensure that new directors are aware of the Corporation's policies, practises and major business issues. Given that the Corporation's directors are accomplished business executives, certified accountants or highly educated and who are generally engaged in the broader business community the Corporation does not have a formal continuous education policy. The Corporation does however make the Board and committees aware of emerging governance, legal and financial reporting issues that are relevant to the Corporation's affairs.

The Corporation has 3 standing committees. These are the Audit Committee, the Human Resource and Compensation Committee and the Governance and Nominating Committee. For Committee membership, please see "Election of Directors". For further information regarding the composition and qualifications of the Audit Committee please see the Corporation's 2014 Annual Information Form, section "Audit Committee Composition and Qualifications".

The Governance and Nominating Committee is comprised of three directors - two of which are independent. This Committee is responsible for, among other things, reviewing and reporting to the Board from time to time on the size, composition and profile of the Board, reviewing the qualifications of persons submitted as potential candidates for the Board and making recommendations to the Board in respect of same and annually reviewing the contribution of individual members of the Board and the performance of the Board as a whole. In conjunction with the Chair of the Board, the Committee recommends to the Board the membership and Chairs of each of the Committees of the Board. The Committee is also responsible for advising the Board on matters of corporate governance. The Committee meets as often as is necessary to carry out its responsibilities. In fiscal 2014, the Committee met once and no changes to the Board composition were contemplated. The Committee is permitted access to all records and corporate information that it determines necessary to discharge its duties and responsibilities.

The Governance and Nominating Committee is responsible for recommending candidates for nomination to the Board. Each member of the Board is encouraged to recommend potential candidates for the Board and such recommendations are then reviewed by the Committee. In conducting such review, the Committee considers the competencies and skills that the Committee considers to be necessary for the Board as a collective to possess and the competencies and skills that the Committee considers the Corporation's existing directors to possess. In reviewing the qualifications of potential candidates, the Committee assesses, among other things, industry experience, financial literacy, functional expertise in such areas as accounting and corporate finance and previous experience as a director. The Governance and Nominating Committee does not set specific, minimum qualifications that nominees must meet in order to be recommended to the Board, but rather believes that each nominee should be evaluated based on his or her individual merits taking into account the needs of the business and the composition of the Board. Additionally, neither the Governance and Nominating Committee nor the Board has a specific policy with regard to the consideration of diversity in identifying director nominees; however both may consider the diversity of background and experience of a director nominee in the context of the overall composition of the Board at that time, such as diversity of knowledge, skills, experience, geographic location, age, gender, and ethnicity. The Governance and Nominating Committee may also consider candidates recommended by significant shareholders. Members of the Governance and Nominating Committee discuss and evaluate possible candidates in detail and suggest individuals to explore in more depth. Candidates believed to be suitable are then discussed with the Chair of the Board and as appropriate, the Chair of the Board initiates a meeting with the candidate to determine such candidate's interest and availability.

The Human Resource and Compensation Committee (the "**HRC Committee**") consists of five directors - four of which are independent - and is responsible for making recommendations to the Board with respect to the appointment of the Corporation's senior officers. Two of these HRC Committee members (Mr. van Schaik and Mr. Magee) are or have been President and/or CEO of global automotive component

suppliers with thousands of employees and as such have direct and extensive experience with compensation arrangements and their suitability for both senior management and production staff – both domestically and internationally. The HRC Committee is also responsible for initiating and reviewing compensation arrangements for the Corporation's senior officers and the directors and for making recommendations to the Board in respect of same. The Board is ultimately responsible for adopting these recommendations if it determines it appropriate to do so. In carrying out its duties, the HRC Committee is responsible for, among other things, developing or approving performance indicators and objectives for the President and CEO and, in conjunction with the President and CEO, for the other senior officers of the Corporation. The HRC Committee is also responsible for developing or approving the design and administration of short and long-term incentive plans, benefit plans and employment termination arrangements for senior executive officers. The HRC Committee meets as often as is necessary to carry out its responsibilities. In fiscal 2014, it met two times.

The HRC Committee annually conducts an assessment of the effectiveness of the CEO. The HRC Committee also periodically assesses the effectiveness of the Board itself. The Chair of the HRC Committee is responsible for circulating to each member of the Board the confidential assessment surveys and for reviewing the responses thereto. The surveys seek to assess the effectiveness of individuals and the Board as a whole. The results of these assessments are evaluated, reviewed with the Chairman of the Board, and recommendations as appropriate are presented to the Board.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Discussion and Analysis is designed to explain the significant principles which underlie the Corporation's policies and procedures for the compensation of its executive officers, including information on the objectives of the Corporation's executive compensation strategy. Included in this section is a discussion of each element of compensation, why the Corporation has chosen to recognize each element, how the Corporation calculates the amount for each element and how each compensation element fits into the Corporation's overall compensation strategy.

The Board of Directors, on the recommendation of the HRC Committee determines on an annual basis the base compensation for the CEO of the Corporation based on internal deliberations following consultation with the HRC Committee and other members of the Board. With respect to base salary, the HRC Committee does not apply formal objectives or set formulae in order to determine base compensation but conducts a qualitative determination of the level of performance in regards to strategic objectives of the Corporation. With respect to cash bonus and Long Term Incentives for the CEO and business unit managers, rewards are based on objective formulae relating to the financial performance of their business units or consolidated financial results. The Board, upon the recommendation of the HRC Committee also determines on an annual basis the total compensation of the Chief Operating Officer ("COO") and Chief Financial Officer ("CFO"). This determination takes into account the recommendation of the President and CEO and the HRC Committees' views as to the broad scope of responsibilities of the Corporation's COO and CFO and the HRC Committee's subjective assessment of his/her impact on the Corporation's overall success.

The Corporation's executive compensation philosophy is to:

- (a) Provide a competitive level of base compensation and benefits that will attract and retain talented and committed executives; and
- (b) Reward executives by use of short term incentives (cash bonus) and long term incentives (stock options) for the achievement of consistent higher than average profitability.

In order to attract and retain a high level of executive talent, the HRC Committee has historically targeted total executive compensation levels in the median range to above-mid range of automotive manufacturing and industrial companies, whose operational, corporate finance and other activities are considered

comparable to those of the Corporation. This is not a rigid requirement and discretion exists to take into account trends and/or challenges in the automotive industry. The HRC Committee has established this range because the global automotive power train and component sector in Canada is extremely complex, constantly challenged, and exceptionally competitive and also because the Corporation must have superior talent in order to deal with these challenges and to accomplish its strategic objectives.

Periodically, the HRC Committee compares executive compensation levels with other Canadian small cap public companies in the automotive industry. This testing of compensation levels is done with respect to base salary and annual bonus. This process was undertaken in 2010 with the assistance of Mercers. In May 2012 Mercers was again engaged for this purpose. The mandate was to select up to eight small cap Canadian public companies in the automotive industry with annual sales within half to two times that of the Corporation. Two additional Canadian small cap companies were added one of which exceeded the top range and one of which exceeded the bottom range. This provided guidance to the Committee on executive compensation and allowed the Committee to evaluate market compensation information and ensure that the HRC Committee's approach is appropriate and is generally consistent with compensation trends in the marketplace. Regarding its compensation deliberations in respect of the 2014 fiscal year, the Committee determined that the current level of compensation was appropriate although the acquisition of ALC on March 1, 2014 did prompt a 'one-time' payment to an executive involved in the transaction. Mercers was not engaged by the Corporation or any of its affiliates or subsidiaries for any other services during the 2014 fiscal year.

For fiscal 2014 the HRC Committee quantified and reviewed all elements of the compensation of the Corporation's executives named in the Summary Compensation Table, below (the "Named Executive Officers" ("NEOs")). The Committee also quantified and reviewed the projected payouts to the Named Executive Officers and payouts resulting from their termination and under the Corporation's Share Option Plan and other payouts. The Committee reviewed this information at two meetings held in August and November 2014 when the audited financial results for the fiscal year were known to ensure that it had a complete understanding of each element of the compensation arrangements in effect for the NEO's, including an understanding of the "total" current executive compensation including future commitments. The Committee Chairman also addressed compensation matters at several Board meetings throughout the year.

The HRC Committee believes that the total compensation packages of the Corporation's executive officers are appropriate in light of the Corporation's overall performance during 2014, given margin improvement, cash flow improvement, the ongoing greenfields and the increased global complexity of Exco. The HRC Committee also considered the Corporation's share price performance as a factor in its compensation determinations. It undertook a comparison of the Corporation to its peer companies as described above and the HRC Committee recognizes that the Corporation's share price has not only continued to improve over prior years but the rate of improvement has accelerated dramatically. Furthermore, Exco's performance was far superior to both the S&P/TSX Small Cap index and the Automotive & Components index. In addition, the Corporation's return on capital employed is among the highest of Canadian public automotive suppliers in 2014. It also noted that the Corporation's share price reflects the strong balance sheet and dividend growth history which management has been able to consistently sustain.

Elements of Executive Compensation

Executive compensation for 2014 included four basic elements, along with a package of benefit plans designed to complement the compensation components described below. The following summarizes the Corporation's reasons for each element of compensation:

1. *Base Salaries*

Base salaries provide fixed compensation to executives. The Corporation pays base salaries that the HRC Committee believes are competitive with salaries paid for similar positions and are based on the executives level of responsibility and ability to influence the performance of the Corporation and take into account that the Corporation does not offer a pension plan or retirement benefits of any kind. These salaries are reviewed by management and the HRC Committee annually. No changes were made in 2014, although for 2015 changes will be made to reflect the increased size and complexity of the ALC acquisition.

2. *Cash Bonus Program*

The cash bonus program is a variable component of compensation and is designed to compensate business unit managers for the short term financial performance of the operations for which they are responsible. The cash bonus payable to business unit managers is 50% of that business' bonus pool (subject to a cap as discussed below). The bonus pool is calculated by applying the following two – step formula to each business unit or business group, as the case may be:

Step 1:

$$\frac{\text{Fiscal Year Pre-Tax Profit - Hurdle Amount}}{\text{Net Sales}} = \text{Pre-Tax after Hurdle Return on Sales percentage}$$

Step 2:

$$(\text{Fiscal Year Pre-Tax Profit - Hurdle Amount}) \times \text{Pre-Tax after Hurdle Return on Sales percentage} = \text{Bonus Pool}$$

Fiscal Year Pre Tax Profit is subject to numerous adjustments and is capped at 20% of sales. The Hurdle Rate is 10% of the net investment (less cash, debt and intercompany charges) in the business or business group. In all cases, the business unit manager's bonus is capped at a maximum of 100% of base salary. The cash bonus program varies in detail between segments and divisions to suit particular circumstances but is uniform in basic philosophy and design. The bonus is paid in cash but may be paid in cash and grants of stock options in cases where the bonus for any individual exceeds \$50,000. See 'Long Term Incentive Program' below. The CFO receives a discretionary cash bonus as it is deemed inappropriate to link the CFO's bonus to profitability.

The annual bonus program of the CEO and the COO is calculated as a percentage of the adjusted consolidated pre-tax profit of the Corporation. The adjustment to consolidated pretax profit is a capital charge deduction. The capital charge deduction is obtained by multiplying the Corporation's percentage cost of borrowing by the prior year-end shareholders' equity. The CEO and the COO receive 3% and 1.5% respectively of the adjusted consolidated pretax profit in cash or, in the discretion of the Board, in cash and grants of stock options, and the COO's bonus is capped at 100% of base salary.

The Board retains discretion to award cash bonuses in addition to the requirements of the cash bonus program in keeping with its philosophy of ultimate control over executive compensation and the need,

from time to time, to deal with exceptional circumstances. In 2014, the purchase of ALC was such an exceptional circumstance. The President and CEO of the Automotive Solutions group was accordingly awarded a one-time payment of US\$100,000.

3. Long Term Incentive Program

Long term incentives for NEO's consist of share options which are also a variable component of compensation. Where the cash bonus payable to business unit managers or the CEO and COO exceeds \$50,000, the entitled individual may be required to accept, in lieu of cash, stock options equal to up to one quarter of the cash bonus entitlement exceeding \$50,000. These options are 10-year stock options granted at the market price at the time of grant. The Corporation also retains the right to grant discretionary options with 5 year duration. This discretion is used from time to time to provide additional long term incentives management and recognize exceptional circumstances. Such discretion was exercised in 2014 as 5 year options were awarded (see Summary Compensation Table for detail). The award of share options to the COO reflects his involvement in the purchase of ALC.

These share options vest at the rate of 20% per year and act as an inducement for the recipients to remain in the employ of the Corporation and make business decisions that will contribute to the Corporation's long term share price appreciation.

4. Personal Benefits

The Corporation maintains competitive group benefit plans for all NEOs including provision of life insurance, accidental death and dismemberment insurance, short term disability income, long term disability income and health and dental coverage. Benefits under these plans do not materially differ from those extended to other management employees of the Corporation. Group benefits cease on the NEO's retirement or termination and, with respect to certain group benefits, upon obtaining the age of 65 and 70. From time to time the Corporation provides other forms of compensation that are common in the automotive industry such as providing company cars/car allowances and club memberships to NEOs.

Each of the compensation elements above are generally designed to accomplish one or both of the Corporation's two goals: 1) attraction and retention of key talent, and 2) alignment of compensation with Corporation performance, which includes achievement of consistent higher than average profitability.

1. Attraction and Retention of Key Talent

The compensation package meets the goal of attracting and retaining key talent in a highly competitive automotive manufacturing environment through the following elements:

- A competitive total compensation program, including base salary, cash bonus, long term incentives that are competitive with similar opportunities offered in the marketplace for executive talent; and
- Ten-year share option grants with five-year vesting encourage long tenure with the Corporation.

2. Alignment of Compensation with Corporation Performance

The compensation package aligns individual compensation with the Corporation's operating and financial performance because:

- The base compensation and personal benefits are sufficient to retain competent executive management, and
- The cash bonus and share option awards for business unit managers incent and motivate them to improve the Corporation's operating and financial performance, namely, the Corporation's pretax

profit as a percent of sales after a hurdle rate of 10% of net investment in the business unit is deducted. As this ratio improves the Corporation's net investment declines and gross margin, earnings, EPS and ultimately the share price should rise. In the case of the CEO and COO as consolidated pretax profit above the cost of borrowing charge rises so should the Corporation's overall earnings, EPS and ultimately share price.

As noted above, the Committee targets total compensation at the mid range to above-mid range of comparable market practices. Various elements of total compensation are managed so that the total package provides the potential to add up to the approximate midpoint of the equivalent position range at target performance levels. Within total compensation, in 2014, the Committee sought to balance the various components with a view to retain talent in order to achieve short term and long term objectives, as well as offering attractive compensation. Besides base salary and personal benefits all other compensation is at-risk, which means that all the cash bonus and long term incentive is at-risk and tied to the Corporation's performance for all NEOs.

A. Base Salaries

In setting salaries of the Named Executive Officers, the Committee reviewed automotive and general industry benchmark data for the CEO. For the other Named Executive Officers it consults with the CEO regarding individual performance. Based on the foregoing review, as well as consideration of individual performance, tenure and experience, the performance of the Corporation overall, any retention concerns, the individual's historical compensation and input from other Board members, the Committee sets the base salaries for the Named Executive Officers. The salaries that the Committee approved for the Named Executive Officers for 2014 are shown in the salary column of the Summary Compensation Table and have not changed from the prior year.

B. Cash Bonus Awards

Given the strong business unit earnings experienced in both of the Corporation's segments as well as the sustained profitability of the Corporation's consolidated earnings in 2014 all NEOs earned a cash bonus in accordance with the formulae described above in amounts set forth in the Summary Compensation Table set out below. These formulae are driven by the Corporation's earnings and not its stock price; however, the 2014 cash bonus awards are consistent with and positively correlated with Exco's superior performance compared to the S&P/TSX Small Cap index and the Automotive & Components index in 2014 as summarized in the Performance Graph below.

C. Long Term Incentive

All NEOs earned cash bonuses in excess of \$50,000 in 2014. The Board exercised its discretion and required all NEOs to receive cash bonuses and no 10 year stock options. Mr. Brian Robbins is nearing retirement age and it was felt that, in this circumstance, options were not satisfactory long term motivators. Historic share option information for grants to NEOs are shown in the table "Outstanding Option-Based Awards".

Managing Compensation Related Risk

In 2014, the HRC Committee considered the implications of the risks associated with its compensation policies and procedures. The HRC Committee is actively involved in the risk oversight of its compensation policies and practices. Managing compensation risk within the context of a decentralized management structure such as Exco's is a critical component of the Corporation's overall risk mitigation process.

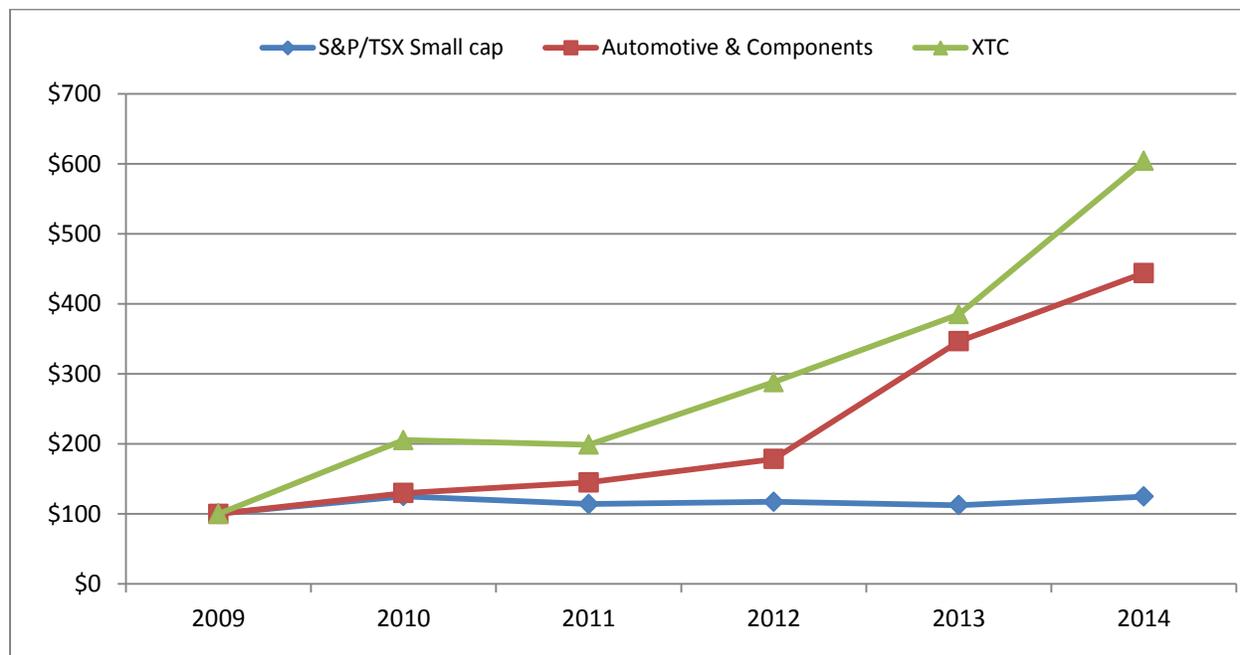

The Company uses the following practices to discourage or mitigate excessive risk-taking:

- The Board reviews and approves each business unit's annual plan and budgets before the start of each fiscal year. These annual plans and budgets include the determination of bonus pools although the allocation to individuals does not take place. Each quarter the annual plans and budgets (included bonus pools) are monitored and updated quarterly by corporate management, if business conditions require it, and reported to the Board.
- The Corporation now has employment contracts for all NEOs except the CEO and the General Manager at Castool Tooling Systems. These employment contracts are approved by the HRC Committee, and incorporate in detail all the terms of compensation. The CEO's bonus is documented and determined by formula as previously discussed herein (see "Elements of Compensation" above).
- Bonuses for NEOs are negotiated in the employment contract as a specific percentage of the fiscal year's pre-tax profits and the size of each business unit's bonus pool is capped. Also, at the individual NEO level there is a cap of 100% of base pay for all NEOs except for the CEO; the negotiated percentages do not fluctuate, although the amount of bonus will fluctuate as profits and net investment fluctuate. The underlying objective of such bonus structure (including of executive officers, and for divisional general managers) is to encourage entrepreneurial management behavior and to link an officer's compensation to the profitability of the operations over which he or she is responsible. As profitability of the division or plant increases, so will such person's bonus.
- All equity based awards (for executives and non-executives) are approved by the HRC Committee and the Board of Directors; where not included in an employment contract, equity compensation is based on performance and is discretionary (as described above).
- The HRC Committee has delegated employment contract negotiations for its vice-presidents and general managers to the CEO and COO, using the same principles as utilized by the HRC Committee and all base salary and bonus awards and employment contracts are approved by the HRC Committee.
- In 2014 all those executive contracts that required renewal, were updated and reviewed by the HRC Committee.
- The Corporation does not have firm share ownership requirements for its NEOs; however, historically NEO share ownership is relatively high. The Corporation does not explicitly prohibit hedging of Exco shares and share based compensation awards, however, no NEO has entered into such arrangements in the past and none exist at the present time.
- The Corporation's long term incentive program includes options which vest over time (or a significant portion of which vest over time). This ensures that executives remain exposed to the risks of their decisions and vesting periods align with risk realization periods. The trading of Common Shares, whether obtained through option exercise or otherwise, is subject to specified black-out periods.
- The Audit Committee and Board of Directors are responsible for assessing and monitoring the Corporation's financial and enterprise risks. Accordingly, the Audit Committee has two members who are former partners with a national accounting firm with extensive and detailed knowledge of financial reporting and recent trends in both IFRS and accounting for the hedging of risk.
- The HRC Committee in some cases and the Board retains, in appropriate circumstances, the discretion to adjust annual incentive payments to take into account unexpected events. Where there are no pre-tax profits, no bonuses are payable to NEOs.

As a result of the HRC Committee's review of its compensation plans, it has concluded that there are no identified risks arising from its compensation programs which are reasonably likely to have a material adverse effect on the Corporation.

Executive Contracts

Mr. Riganelli, Ms. Nguyen and Mr. Schroers are the only Named Executive Officers with written employment contracts. Mr. Riganelli's employment contract provides for a base salary of \$300,000 (to rise to \$350,000 commencing fiscal 2015) plus a bonus up to a maximum of 100% of the base salary calculated based primarily on the Company's consolidated pretax profit after a cost of capital charge. The employment contract has no fixed term, however, provides for notice, or payment in lieu of notice, in the event of termination without cause in the amount of one month and accrued bonus for every year of service. As of the date of the circular this amount would be approximately \$500,000. No change of control provision exists.

M. Nguyen's employment contract provides for a base salary of \$200,000 (to rise to \$220,000 commencing fiscal 2015) plus a discretionary bonus up to a maximum of 50% of the base salary. The employment contract has no fixed term, however, provides for notice, or payment in lieu of notice, in the event of termination without cause in the amount of one month and accrued bonus for every year of service. As of the date of the circular this amount would be approximately \$200,000. No change of control provision exists.

The Corporation has entered into a contract with WS Enterprises Inc. and William Schroers for management services relating to the management of the Automotive Solutions segment. The contract is for a fixed term expiring on September 30, 2015. Both parties are domiciled in the State of Michigan, USA. The amount paid to WS Enterprises Inc. under this contract by the Corporation for the fiscal year ended September 30, 2014 is set out in the compensation table above. Upon expiry of the contract it is the parties' expectation that the contract will be renewed. If it is not a payment of US\$300,000 is required. There is no change of control provision.

Stock Option Plan ("SOP")

Pursuant to the terms of the Corporation's SOP, the Board of Directors is authorized to issue options to officers and employees to acquire Common Shares at such prices as the Board may determine, provided the price is more than the minimum price permitted by the Toronto Stock Exchange. Directors who are not officers are not eligible to receive stock options under the SOP. At present, the TSX requires the price to be no less than the weighted average price of the Corporation's Common Shares on the last 5 trading days before the day of the grant by the Board.

Options granted under the SOP must expire no later than 10 years after the date of grant and are not transferable or assignable other than by will or other testamentary instrument or the laws of succession. Options vest at the rate of 20% per annum. If a participant under the SOP is dismissed for cause, all unexercised options of the participant immediately terminate. If a participant under the SOP ceases to be a director, officer or employee of the Corporation or its subsidiaries, each option held by such participant will cease to be exercisable 30 days thereafter. If a participant under the SOP dies, the legal representative of the participant may exercise the participant's options for a period of 6 months following the date of the participant's death, but only up to the original option expiry date. The Board retains discretion to extend these time limits but has never done so.

The SOP provides that the number of Common Shares reserved for issuance to any one person under the Plan may not exceed 5% of the outstanding Common Shares at the relevant time. It also provides that no option will be granted to non-employee Directors if the grant would result in the number of shares reserved for issuance for all non-employee Directors collectively exceeding 1% of the number of issued and outstanding Common Shares at the proposed time of grant.

At the time the SOP was established, 820,177 Common Shares were reserved for issuance. Adjustments were made for a stock split in 1998 (3 for 2) and a stock dividend in 2003 (2 for 1). Additional Common Shares were reserved thereafter. Most recently, in January 2005 shareholders approved an amendment to the SOP to increase the number of Common Shares reserved thereunder by 760,000 to 6,080,118. The SOP provides that the Board may amend it with the prior approval of the TSX.

The Corporation does not provide financial assistance in connection with the exercise of options under the SOP but retains the discretion to do so in appropriate circumstances.

At fiscal year-end, the Corporation had options outstanding under the SOP to purchase 738,812 Common Shares at exercise prices ranging from \$1.52 to \$8.86 per share, representing 1.8% of the Corporation's outstanding Common Shares. 1,981,958 Common Shares (representing 4.7% of outstanding Common Shares) are available for future grants under the SOP as set forth in the table below:

	Common Shares
Common Shares currently reserved	6,348,227
Common Shares previously issued on exercise of options	(3,627,456)
Common Shares reserved for issue pursuant to outstanding options	(738,813)
Common Shares available for future options	1,981,958

NORMAL COURSE ISSUER BID

On May 5, 2005 the Toronto Stock Exchange approved the Corporation's request to implement a normal course issuer bid. The complete issuer bid share purchase history for each fiscal year since inception is as follows:

Fiscal Year	Shares Purchased	\$ Per Share	\$ Paid

2008	530,200	\$3.45	\$1,829,190
2009	282,100	\$1.88	\$530,348
2010	11,600	\$2.08	\$24,128
2011*	-	-	-
2012	777,180	\$3.53	\$2,743,445
2013	-	-	-
2014	-	-	-
Total	1,949,980		\$6,462,259

**The issuer bid was allowed to lapse on May 9, 2011 and was reinstated on October 5, 2011.*

The normal course issuer bid expired on October 6, 2014 and was not renewed. Since inception of the normal course issuer bid an average price of \$3.31 per share was paid to repurchase Exco shares. All shares were cancelled.

DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

The Corporation holds directors' and officers' liability insurance in the aggregate amount of US\$10,000,000 for annual premiums of approximately \$35,108. The Corporation will pay the first US\$100,000 of any claim made under the policy.

They should possess skills and competencies in areas that are relevant to the Company’s activities, solid business experience, good judgment, integrity, financial literacy and the ability to allocate the necessary time and effort to perform Board and committees duties. A majority of the Board shall be composed of independent directors within the meaning of section 1.4 of Multilateral Instrument 52-110 Audit Committee.
- c) **Majority Voting** – Forms of proxy for the vote by shareholders on the election of directors will list each nominee for director separately so as to enable shareholders to vote in favour of, or to withhold from voting for, each nominee, individually. The Board will promptly cause the outcome of each vote for the election of directors to be publicly disclosed by means of a news release or in such other manner as may be required by the Toronto Stock Exchange. If, with respect to any nominee, the number of votes withheld exceeds the number of votes in favour of the nominee, then such nominee (“Designated Nominee”) is required forthwith to submit to the Board his or her resignation, to take effect upon acceptance by the Board. The Board will promptly, and in any event within 90 days, absent exceptional circumstances, accept the resignation and in making this decision, the Board may request and rely on a recommendation from the Governance and Nominating Committee. That Committee and the Board, may each consider any factors or other information that they consider

appropriate and relevant in making their decision. A Designated Nominee will not participate in the deliberations of any committee or the Board with respect to his or her resignation. If the Designated Nominee is retained, the Company shall issue a news release to this effect in a timely manner which will disclose reasons for retaining the Designated Nominee. Subject to any applicable law, if the resignation of the Designated Nominee is accepted, the Board may leave the resultant vacancy unfilled until the next annual meeting of shareholders, or the board may fill the vacancy through the appointment of a new director. This majority voting policy does not apply to any nominee for election as a director of the Company for 'contested' elections; that is, where, the total number of persons nominated for election exceeds the total number of vacancies to be filled at such election of directors, as determined by the Board.

- d) **Chairman of the Board** – The Board shall appoint a director to be Chairman of the Board. At all times the same person may not occupy the position of Chairman of the Board and of President and/or CEO.
- e) **Director orientation** – Management is responsible for providing an orientation and education program for new directors with a view to ascertaining that all new directors fully understand the role of the Board and its committees, as well as the contribution individual directors are expected to make (including, in particular, the commitment of time and energy that the Company expects from its directors), and the nature and operation of the Company's business.
- f) **Meetings** – The Board has at least five scheduled meetings a year. Additional meetings may be held when required. The Board is responsible for its agenda. Materials for each meeting will be distributed to the directors in advance of the meetings. At each of the five scheduled meetings, the final agenda item is an "in-camera" session which excludes management and non independent directors.
- g) **Committees** – The Board has established three standing committees to assist the Board in discharging its responsibilities: the HRC Committee, the Governance and Nominating Committee and the Audit Committee. Special committees may be established from time to time to assist the Board in connection with specific matters. The Chair of each committee reports to the Board following meetings of the committee.
- h) **Evaluation** – The HRC Committee bears the responsibility to assess the Board's performance as a whole as well as that of individual directors, the committees of the Board and the contributions of individual directors.
- i) **Compensation** – The HRC Committee recommends to the Board the compensation for non-management directors. In reviewing the adequacy and form of compensation, the committee seeks to ensure that the compensation reflects the responsibilities and risks involved in being a director of the Company and aligns the interests of the directors with the best interests of the shareholders.
- j) **Access or independent advisors** – the Board, any committee and/or any director may at any time retain outside financial or legal advisors at the expense of the Company. The retention and the terms and conditions of the retention of external advisors shall receive prior approval by the HRC Committee.
